

```
#include <iostream>
using namespace std;

/**
    2018 2d
*/

class Test
{
    int c = 0;
public:
    static void display() {
        cout << c << endl;
    }
};

int main()
{
    Test t;
    t.display(); /** compile error */
}
```
